

WP - 500W - DV

55 GAL DRUM HEATING JACKET

- 500W / 120V / vertical alignment
- Fits most standard 55 gallon (US) drums
- For use with metal and poly drums

- 85°C / 185°F operating temperature
- Max content temperature reached in ~ 72 hrs
- 4 individually regulated heating zones

- Durable, PVC constructed outer shell
- Resistant to alkalis and solvents
- Multi-layered insulation materials

- Weighs a mere 19lbs (8.6kg)
- Conforms to ETL / UL / CSA standards

Application

Designed to provide an effective and efficient heating process, WarmPro heating jackets are used to reduce the viscosity of products in a number of industries. From fats, oils and food stuffs to cosmetics and pharmaceuticals to industrial chemicals and fluids, WarmPro jackets are the ideal solution for virtually any heating need.

Technology

WarmPro heating jackets contain a set of custom designed, carbon graphite heating elements which operate at a lower wattage and consume up to 93% less energy compared to conventional wire elements. Performance is maximized as the elements generate heat over their entire surface area. Insulation materials allow contents to remain warm for up to 4 days after the completion of each warming cycle.

Ordering Info

Order #	Description	Size	Wattage	Configuration	Temperature
WP-500-DV	Drum Heating Jacket	55 gal / 200 litres	500W	Vertical	< 85°C / 185°F

Also Available

Order #	Description	Size	Wattage	Configuration	Temperature
WP-500-DH	Drum Heating Jacket	55 gal / 200 litres	500W	Horizontal	< 85°C / 185°F
WP-1200-DV	High Performance Drum Heating Jacket	55 gal / 200 litres	1200W	Vertical	< 110°C / 230°F

55 GAL DRUM HEATING JACKET

- 500W / 120V / horizontal alignment
- Fits most standard 55 gallon (US) drums
- For use with metal and poly drums
- 85°C / 185°F operating temperature
- Max content temperature reached in ~ 72 hrs
- Durable, PVC constructed outer shell
- Resistant to alkalis and solvents
- Multi-layered insulation materials
- Ideal for heating a range of viscous materials
- Conforms to ETL / UL / CSA standards

WP - 500W - DH

Application

WarmPro drum heating jackets are ideally suited for reducing the viscosity of a wide range of products, enabling them to be decanted into smaller containers or product lines. From fats, oils and food stuffs to cosmetics and pharmaceuticals to industrial chemicals and fluids, WarmPro jackets are the ideal solution for virtually any heating need.

Technology

Each WarmPro heating jacket contains a set of custom designed, individually regulated carbon graphite heating elements. The unique characteristics of these new age heaters allows product to be warmed more evenly and efficiently, without the risk of scorching or burning associated with conventional wire elements. Energy savings can range up to 50% versus conventional heating jackets.
